Product B

In my forty years of clinical experience, working with a variety of products,

nutraceuticals, supplements, herbs, and a variety of technologies, I have never seen or experienced anything like Product B. It appears to be truly the breakthrough into a new era. Research has been done throughout the world for centuries to find the secret of youth. Product B represents what may be that secret to youth. I like to call it Product Brilliant. To truly understand what I am talking about I need to refer to the research that has been done on telomeres.

Maria A. Blasco, director of the Telomere and Telomerase Research Group at the Centra Nacional de Investigaciones Oncologicas, in essence says it bluntly, "Human beings born with shorter telomeres due to telomere mutations live shorter lives." This is the condition in the world today because of external environmental conditions, lifestyles, and diet.

The lifestyle I promote, (including eating a low-glycemic, 80-100% live-food, plant-source diet; meditation; time in nature; being in loving relationships; and living productively and fastidiously), slows telomere shortening. These lifestyle practices do not, however, reverse telomere shortening, but by slowing the shortening we are able to prolong longer qualities of extraordinary, enduring, radiant health.

Product B works on a different principle. It appears to reverse telomere shortening. This is the breakthrough. It is in this way it is the fountain of youth in a capsule.

Human anecdotal stories to support the research findings are helpful in suggesting trends. Here is just one example:

A man named Gary M. from Brisbane writes that over 40 years earlier he had dislocated two fingers playing football and he could not bend them without pain. Thirty-five years ago he dislocated his knee, and that it clicked when he walked; it sometimes wouldn't work right and he would fall down. Five days after beginning Product B he was able to bend his fingers without pain. At 7 days he began to sleep through the night for the first time in years. On day 8 he noticed an improvement in eyesight, and on day 11 he noticed the clicking in his knee had stopped.

When I sum up the many anecdotal statements, I see:

- 1) Increased clarity and brain power, cognition and memory, better mental focus, and increased inner peace
- 2) Increased endurance, energy, and strength, with some claiming up to 25% more;

- 3) Major relief from chronic pain and inflammation and joint pain, which seems quite dramatic;
- 4) Skin changes, including the reversal of liver spots on the hands;
- 5) Hair and nail growth, with some accounts of hair darkening;
- 6) Reversal of Alzheimer's disease symptoms;
- 7) Improved digestion and bowel function (Apparently the lining in the small and large intestines, which is generally very regenerative is quite improved with Product B.)
8. Consistent pattern of reduced blood sugars toward normal
9. A consistent improvement in the depth and quality of sleep

As I grasp the meaning of this, I am seeing some correlations between the improvements brought on by Product B and the ancient Chinese medical quest for ways to strengthen pre-natal jing. With proper lifestyle and live-food diet, people may repair and strengthen post-natal jing. I believe that Product B may be able to consistently build pre-natal jing. Up until now, this is unheard of except in very rare cases. For unique spiritual individuals with strong meditative abilities one may undergo certain disciplines that can stop aging or reverse aging. This is not available to laypeople, but, yes, this can be accomplished. People have been reported to grow new teeth, new hair, and regenerate.

The point is that it can be done. One can rebuild the prenatal jing. With Product B it may now be available to common people on a mass level. This sets the stage for an epic transformation in our society.

Blessings to your enduring health and spirit,

Rabbi Gabriel Cousens, MD, MD (H), DD, Dip. American Board of Holistic Medicine, Dip. Ayurveda
