

## NEW INFORMATION THAT CAN CHANGE YOUR LIFE TODAY

### \*\*\*\*\***AMPED NOx**\*\*\*\*\*

Q. **WHAT** is the "MIRACLE MOLECULE" ?

A. **NITRIC OXIDE (NO)**..biological miracle maker..a SIGNALING molecule.

Q. **HOW** long does it take **NO** to **SIGNAL**?

A. It is created & released then penetrates nearby membranes & cells sending a **SIGNAL** in less than 1 **SECOND** to...

\*\*arteries to relax and expand

\*\*immune cells to destroy bacteria & abnormal cells

\*\*brain cells to communicate with each other.

Q. **HOW** does **NO** work to protect you from **CVD**..**Cardiovascular**

Disease...artery hardening, plaque-clogging that leads to heart attacks & strokes?

A. The **ENDOTHELIUM**, single cell lining of your blood vessels / arteries/capillaries that transfer **OXYGEN & nutrients** from your bloodstream to your tissues. In healthy vessels/arteries/capillaries the Endothelium is smooth & blood flows freely,they widen by dilation. Research proves that **NO** is manufactured in the endothelium biochemical pathways.

Q. **WHY** should you care?

A. It is a direct link to improved energy, memory, stamina, heart health, & sex life.

Q. **WHY** isn't **L-arginine** an amino acid the Answer?

A. L-arginine is associated with **NO** but since the L-arginine pathway becomes dysfunctional with **age/ stress (adults typically over 40)** Endothelial function is lowered.

**KEY POINT:** low endothelial function = inability to convert L-arginine to **NO**. Those typically found unable to convert L-arginine to **NO**: smokers, obesity, blood pressure, blood sugar, cholesterol, sedentary lifestyle, & heart history issue people

1992 **NITRIC OXIDE** named "**MOLECULE OF THE YEAR**"

1998 **NITRIC OXIDE NOBEL PRIZE** for Nobel Prize Physiology a Medicine.

**"NO** was first discovered by **Dr Robert Furchgott** in 1980 as a vasodilating substance produced by cells lining our blood vessels, or endothelial cells.

He first described the substance as "endothelium derived relaxing factor"or" **EDRF**". **Dr Louis Ignarro** later discovered that **EDRF** is Nitric Oxide".

Ten years prior, **Dr Ferid Murad** discovered that nitro-glycerin actually works through the release of **NO** and activation of an important enzyme.

These 3 scientists were awarded the Nobel Prize in 1998 for discovery of the critical cardiovascular role in **NITRIC OXIDE**. Dr Valentin Fuster, then president of the American Heart Assoc., note in an interview w/ the NYTimes that "the discovery of **no** and it's a function is one of the most important in the history of Cardio. Medicine.

**NO** Research states: many symptoms of **NO** occur with age: loss of energy, forgetfulness, sexual health & performance declines, aches, pains manifest, as well as specific disease challenges, root of cardio issues & if over 40 it is predicted there is abnormal vasodilation.

## SCIENTIFIC PROOF:

- ENDOTHELIAL DYSFUNCTION PREDICTS HEART DISEASE
- LESS **NO**, LESS ENDOTHELIAL REPAIR
- HIGH FAT, LOW **NO**
- AGE WEAKENS YOUR ENDOTHELIUM BECAUSE OF LESS
  - **\*\*STATS:**
    - 31-45 11% WEAKER VASODILATION
    - 46-60 24% " "
    - 61+ 52% " "
  - **NO** MORE **NO**, LESS Joint challenges
  - CLOSED AIRWAYS OPEN WITH **NO**
  - BOOSTING **NO**, RELIEVES Breathing Issues
  - IMPROVE TREATMENTS WITH **NO**
  - NORMAL **NO** = NORMAL BRAIN
  - SUGAR-REGULATING INSULIN NEEDS **NO**
  - LESS **NO**, LESS BLOOD FLOW
  - AGE REDUCES **NO**
  - MORE **NO**, BETTER HEALING FOR FOOT ULCERS
  - **NO** FOR Eye Issues
  - REM SLEEP NEEDS **NO**
  - **NO** CAN HELP PROTECT Filtering Organs
  - **NO** IS A MUST FOR GOOD MEMORY
  - **NO** FOR STRONG BONES
  - PROTECT LUNGS WITH **NO**
  - LESS SUN DAMAGE WITH **NO**
  - **NO** FOR PREVENTING & HEALING
  - **NO** GIVES STRESS SOOTHING POWER
  - INSOMNIA / POOR SLEEP LINKED TO LOW **NO**
