

MY ISAGENIX "CLEANSING" STORY

BEFORE ISAGENIX CLEANSE
156 Pounds

AFTER ISAGENIX CLEANSE
144.5 Pounds

As a mother of two, I completely lost the figure which I used to be proud of - together with the confidence and energy. After giving birth to my second child, I was also facing lots of health problems. The fact of not able to fit in any of my pre-pregnancy clothes made me feel terrible. I didn't want to go out, and didn't want to see people - so I was in a very bad depression.

When I first got to know the **Isagenix 9-Day cleansing and Fat-Burning system** - I was very skeptical and didn't feel comfortable to take anything into my mouth. So I consulted with my husband who is a research scientist. With his background of environmental chemistry, he told me how bad the environmental pollution is today and that people are taking too much toxins from the environment and food. Also, with all the damage to the environment and over-farming, the soil is losing more and more nutrients which are essential to our body. As the consequence, our organs are not able to work at an optimal level. Then he went further on and did an independent study on the ingredients, and he concluded that the Isagenix Body-Cleansing and Fat-Burning System is good and worth a try.

So I went ahead to try it - and amazing things happened to me. Right on the 2nd day in the 9-Day program, I felt a sudden boost of energy which I hadn't had for a long time. I lost total 11.5 lbs and shrank 3 inches in 9 days. I was thrilled to see myself and could fit into my pre-pregnancy clothes already.

Of course I was very happy with the weight loss . . . I couldn't hold my tears. **The cleansing really helped to give me back my health !**

Now I am on the **Isagenix Maintenance For Life Program** to keep my new clean and lean body and revitalized health that I have gained. I found I am no longer craving for those fattening things and also saving money from not buying junk food. I am so much happier and healthier than before.
